 github.com/sameerbjs  Lahore, Pakistan  Portfolio

PROFILE

Senior Frontend Engineer with **4+ years** of progressive experience designing and developing **7+ scalable** production-ready web and mobile applications. Expert in **React.js, React Native, Next.js**, and TypeScript with proven success in delivering high-performance solutions. Passionate about building efficient technical solutions and creating responsive user-friendly interfaces through API integration and cross-functional collaboration.

SKILLS

Frontend

React.js, React Native, Next.js, TypeScript, JavaScript ES6+, HTML5, CSS3, Tailwind CSS, Framer Motion

Backend & API

REST APIs, GraphQL, Real-time Data Integration, API Optimization, Caching Strategies

Development Tools & Platforms

Git, GitHub, GitLab, Bitbucket, VS Code, Visual Studio, Postman

EXPERIENCE

Next.js Developer

08/2025 – 11/2025 | Lahore, Pakistan

React-ive Code Labs - Part-time

- Contributed to the development of a **multi-tenant** SaaS web application using Next.js.
- Designed and implemented dynamic and reusable UI components tailored for different tenant configurations, ensuring design consistency across multiple client instances.
- Integrated RESTful APIs for seamless backend communication, optimizing data flow and improving performance.
- Embedded **OpenAI APIs** to enable **AI-powered** content generation features, enhancing platform functionality and user engagement.

Senior Frontend Engineer

10/2021 – present | Lahore, Pakistan

BJS Soft Solution

- Delivered **5+ production-ready web applications** using React.js.
- Spearheaded the development of **Redux-based state management** architecture, streamlining data flow across the application and accelerating feature implementation cycles by 25% through improved code maintainability.
- Collaborated with backend teams to create **scalable API endpoints**, ensuring smooth integration and performance.
- Led UI/UX improvements, reducing **user-reported issues by 80%** through thorough testing and optimization.

Frontend Developer

07/2024 – 04/2025

Cross Sonic

- Developed and deployed a production-ready web application using **React.js** and **Tailwind CSS**, ensuring responsive and visually appealing user interfaces.
- Ensured **cross-browser compatibility** to provide a consistent user experience across major browsers.

- Integrated **third-party APIs** to enable real-time data functionality and enhance application performance.

PROJECTS

Reflys APP (BJS Soft Solutions) [↗](#)

- Developed a high-performance web platform utilizing **React.js** and **TypeScript**, decreasing page load times by **30%** through strategic code splitting and lazy loading techniques for faster rendering.
- Integrated **Redux Toolkit** for efficient state management, improving data synchronization across components.
- Enhanced user experience by integrating **REST APIs** for real-time data interaction.

Reflys (BJS Soft Solutions) [↗](#)

- Built an interactive web app using **Next.js**, **Tailwind CSS**, and **Framer Motion** for smooth animations and transitions.
- Implemented dynamic routing, animated page transitions, and a clean, modern UI.

CertsLibrary (React-ive Code Labs) [↗](#)

08/2025 – Present

- Architected and developed a **multi-tenant SaaS** platform using Next.js and TypeScript.
- Designed and **implemented** dynamic and **reusable** UI components tailored for different tenant configurations, ensuring 100% design consistency and reducing component development time by 50%.
- Embedded **OpenAI** APIs to enable **AI-powered** content generation.

Procurement League (BJS Soft Solutions) [↗](#)

- Revamped a **procurement platform** using React.js and GraphQL, reducing data load times by **40%**.
- Enhanced caching strategies, ensuring reliable and fast data interactions.

Sourcing Genie (BJS Soft Solutions)

- Completed **10+ mobile screens** using **React Native**, ensuring a smooth and intuitive user experience.
- Integrated **GraphQL** for data fetching and caching, reducing API response times by **25%**.
- Optimized app performance using **code-splitting** techniques.

Btrendy (BJS Soft Solutions) [↗](#)

- Created responsive interfaces with **React.js** and **Tailwind CSS**, ensuring compatibility across devices.
- Improved app performance by **25%** through optimized API calls and Redux integration.

Rapid Cravings (Final Year Project) [↗](#)

- Built **10+ user-friendly screens** using **React.js** and **10+ REST APIs** with **Node.js** and **MongoDB**.
- Increased web app performance by **30%** using **Redux Toolkit** for state management and **Express.js** for server-side logic.

EDUCATION

BSCS (Hons)

10/2019 – 07/2023 | Lahore, Pakistan

NCBA & E

CERTIFICATIONS

- React Developer (Hackerrank) [↗](#)
- Problem Solving (Hackerrank) [↗](#)
- Rest API (Hackerrank) [↗](#)
